Fore Golf to Manage Meadowlark Golf Club and Micke Grove Golf Links

MANASSAS, Virginia – Fore Golf Management, a wholly-owned subsidiary of Fore Golf, announced today that it has entered into an agreement to manage Meadowlark Golf Club (Huntington Beach, CA) and Micke Grove Golf Links (Lodi, CA).

"We are very pleased to announce the addition of these two California golf courses to our portfolio of owned and managed clubs and courses. During the next twelve months we will implement capital improvement projects at both courses that will include upgrades to the golf courses and clubhouses. We believe patrons will appreciate the enhancements we are planning," said Michael Miraglia, president of Fore Golf Management.

Fore Golf is managing the two courses for CNL Lifestyle Properties, an Orlando, Fla.-based real estate investment trust that focuses on lifestyle properties.

Last week, Fore Golf announced that it had entered into an agreement with CNL to lease one of southern California's finest private clubs, Valencia Country Club. The addition of California courses to the Fore Golf family of clubs comes on the heels of the company's purchase of Feather Sound Country Club in Clearwater, Florida.

Fore Golf was established in 1978 and since then has owned and operated over eighty properties including some of the country's most prestigious golf clubs, country clubs and resorts.
